POP-UP DEMONSTRATIONS & WORKSHOPS WILL BE OFFERED  
THROUGHOUT THE DAY

**Questions? - email: [sogetsudallas@gmail.com](mailto:sogetsudallas@gmail.com)**

**MARCH 22 WORKSHOP - PVC CONTAINERS**

In this workshop you will use sections of PVC pipes to design and create your container. After creating your container, you will select natural materials and make an arrangement. Your arrangement will then be entered in the Exhibition. Additional information provided after registration.

**MARCH 23 WORKSHOP - MINIATURE CONTAINERS**

In this workshop you will select small containers – glass, plastic, vinyl, anything that holds water – which you will cover in washi paper. After you finish your miniature containers, you will select natural materials for each, then compose your containers on a base (glass, plastic, vinyl, acrylic, etc.) We encourage you to start collecting your containers now. They should be 2" or smaller. Also, locate something on which you will display your finished arrangements. Your finished composition will be placed in the Exhibition. Additional information provided after registration.

**MARCH 24 WORKSHOP - CONSTRUCTING A BAMBOO SCULPTURE (SMALL GROUP WORKSHOP)**

For this workshop, we will divide into small groups. Each group will be supplied with a quantity of assorted bamboo. A sculpture design will be created by the group, which will then construct the sculpture. This workshop may require the use of drills, saws, hammers and other construction implements. If you have a bamboo saw, please bring it to this workshop. Additional information provided after registration.

**IF YOU ARE PAYING FOR ADDITIONAL REGISTRANTS,  
PLEASE ENTER THEIR NAMES BELOW:**
